SUMMARY

Web developer with a background in project management and operations. Working on a team that has a unified vision of creating something purposeful is what motivates me. Excited to bring a positive attitude, tireless work ethic, and team first mentality to my next endeavor as a junior web developer.

EXPERIENCE

Dev Bootcamp

Web Development Student · Mar 2016 to Aug 2016 · New York, NY

- 18 week immersive course learning full stack web development.
- Spent 60+ hours per week actively learning to code and build web applications using Ruby on Rails, JavaScript, HTML, CSS, PostgreSQL, ActiveRecord, and Git.
- Was selected as Project Manager by my peers to facilitate the construction of PodPals.

Zocdoc

Technical Operations Associate · Oct 2014 to Mar 2016 · New York, NY

- Deployed, configured, and maintained proprietary software for doctors' offices across The United States.
- Provided software consultations for practices and IT professionals.
- Worked internally with engineering teams to provide data used for bug resolutions and feature requests.
- Created and implemented a contingency plan for team wide use during technology outages.

Zocdoc

Senior Operations Associate · Mar 2014 to Sep 2014 · New York, NY

- Provided excellent and reliable customer service for thousands of doctors and patients across the country.
- Collaborated with department leadership to develop and implement new workflow strategies.
- Improved and maintained database of online internal training tools.
- Worked closely with project team members to develop and implement project to consolidate data collection within the Operations Department.

Peace Corps

Teacher of English as a Foreign Language · Sep 2010 to Dec 2012 · Ukraine

- Successfully completed a 3 month Pre-Service Training. Taught English language to grades 5 through 11.
- Developed custom lesson plans. Managed a group of up to 28 students in class and after hours.
- Organized community English and Sports clubs, attracting up to 35 participants on a weekly basis.
- Launched and facilitated a community project to improve the lives of orphan children in my Ukrainian community.

SKILLS

Ruby, Ruby on Rails, JavaScript, JQuery, Ajax, HTML, CSS, SQL, RSpec, Agile Web Development

PROJECTS

PodPals

Aug 2016 to Current

PodPals is a community podcast sharing web application that was built in one week. It allows users to register an account and utilizes the iTunes Search API to add podcasts to a user's queue or favorites list. The application will then recommend other podcasts to the user to listen to based upon those favorites. Users can add friends and share podcasts with one another.

EDUCATION

Dev Bootcamp

Computer Software 2016

University of Pittsburgh

B.A. English Literature 2010
